Multilift II with internal carriage

Versatile usability
for your application

Multilift II with internal carriage

Slimline design makes for great versatility

Highlights / Features:

- Integrated limit switches
- Self-locking, even at max. load
- Lateral fixing slot in external profile
- Position feedback by hall sensor

Options:

- Special stroke lengths and installation height available on request
- With synchronous control:
 - Cascading of several columns
- Customised solutions on request

Multilift II with internal carriage

Technical data

General information/operating conditions

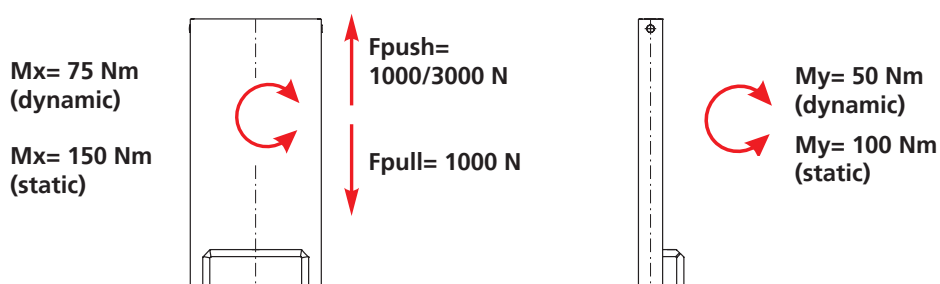

Type	Multilift II with internal carriage	Custom
Design	Slim lifting column	
Guide	POM slide bearings	
Installation position	Any position / hanging only with drop protection provided by the customer	
Push force	3000 N or 1000 N	
Pull force	3000 N or 1000 N	
Self-locking	Yes	
Max. travel speed	8 mm/s or 16 mm/s	
Max. Stroke	500 mm	1000 mm
Installation dimension	Stroke + 210 mm	
Voltage	28 V DC	
Current output	4 A	
Protection class	IP 10	
Ambient temperature	+5°C to +40°C	
Displacement during synchronous operation	0 to 2 mm	
Duty cycle (Operation mode S3)	At nominal load, 10% (2 min operating time, 18 mins rest time)	

Note:

All information refers to the standard sizes. All data of push/pull forces are referring to the individual lifting column, for combined applications a safety factor of up to 0,6 has to be considered.

In medical applications, the maximum pull force of 500 N and, in the case of the version with a travel speed of 8 mm/s, the maximum push force of 2500 N must not be exceeded.

Load data Multilift II with internal carriage

Drive	Push force [N]	Travel speed [mm/s]	Number of assigned motor channels			
			1	2	3	4
Multilift II with internal carriage	1000	16	✓	✓	✓	each 750 N
Multilift II with internal carriage	3000	8	✓	✓	each 2200 N	each 1500 N
			MultiControl II duo		MultiControl II quadro	

Note:

If more than 2 drives are to be operated synchronously at nominal load, BUS communication between two or more MultiControl II duo controllers is required.

The procedure for setting up BUS communication is described in detail in the operating manual.

Multilift II with internal carriage

The fixing slots on the side allow an easy attachment of accessories. For example, a screen, CPU bracket or system reinforcements can be fixed to the lifting columns by using slot stones. The 30 slot geometry is also compatible with the RK BLOCAN® aluminium profile system.

Multilift II with internal carriage

Versions

Multilift II with internal carriage – maximum versatility

Customer feedback formed the basis for a number of improvements to the design of the Multilift II. Our latest new feature is an assembly slot on both sides of the external profile of the electric lifting column, which is compatible with the RK Rose+Krieger aluminium profile system and can take corresponding slot stones. They allow additional attachments such as reinforcements, screening and so on to be mounted without any problems.

Special features:

- Lateral fixing slots
- Captive plug connections
- Suitable for both tensile and compressive loads
- Internal carriage

Ideal area of application:

- Workplace ergonomics
- Industrial technology
- Media technology
- Materials handling

Lifting column and control as individual components:

Multilift II can be used exclusively in combination with MultiControl II duo and MultiControl II quadro

Features:

- Supports configuration of systems with up to 32 drives
- Wide-range input
- High duty cycle
- Simple connection to master control system
- Intuitive operation

Information about these products you will find on our RK website or in the complete catalogue

-lifting columns and electric cylinders- for the new control generation MultiControl II.

RK SyncFlex V

Scope of delivery:

Adjuster plate, incl. fixing material

Option:

Pressure plate (see table) can be ordered separately

Vertical alignment

- If the lifting columns are not parallel, the distance between the two upper fixing points will change during the movement. However, a rigid connection keeps this distance constant, which means that the lifting columns are subject to very strong forces.

RK SyncFlex V enables the compensation of unevenness in the mounting environment.

- The lifting columns can be aligned via the vertical adjustment around the X-Y axes.

Adaptor bar

- Cross struts from the BLOCAN® Profile Assembly System are used to increase the stability of two version Multilift II with internal carriage. The adaptor bar is suitable for F profile 40 x 80 L and F 30x60.

Material:

AlMgSi 0,5

Fixing set, zinc plated

Scope of delivery:

2x adaptor bars, fixing set

BLOCAN®-Profile F 30x60 as cross strut

Slot stones, -L- M6 4046204

Mounting bracket for Multilift II

- The mounting brackets are used to fix the lifting column horizontally or vertically horizontally or vertically by means of the fixing slots on the outer profile of the Multilift II. Also suitable for ESD applications.

Material:

Aluminium die cast

Scope of delivery:

One mounting bracket including mounting material

[mm]

Code No.	Type	Max. load	Multilift II	
			Internal profile	External profile
QZD020745	Multilift II mounting bracket	3000 N		●

Support struts

- For stabilisation of column structures.
- Available for all Multilift II/ Multilift II telescope variants.

Material:

Aluminium not anodized

Scope of delivery:

Two support struts including fastenings

Code No.	Type	Width (min.)	Width (max.)	Multilift II	
				Internal profile	External profile
